

Electronic Access to PHI Post Test

(Please circle your answer)

1. *True or False:* It is permissible for you to electronically access your MINOR child's medical record or PHI.
2. *True or False:* You do **not** need to sign an authorization for electronic access to your own medical record.
3. *True or False:* Access to electronic medical records of adult family members is allowed if there is a signed authorization in the medical record.
4. *True or False:* The identity of everyone accessing the electronic medical record is recorded and access is monitored.
5. *True or False:* A breach of confidentiality caused by reckless behavior, such as sharing in public that a person is a patient at Mayo Clinic Health System, can result in a written warning or suspension.
6. To obtain copies of your minor child's medical record, please contact:
 - a. Business Services
 - b. Customer Services
 - c. Health Information Management Release of Information at the site where care was provided
7. *True or False:* If you are asked by another health care provider to consult (even informally) on a test, image or interpretation of a test/image, then it is appropriate to electronically access the patient's medical record, whether you document that access or not.
8. *True or False:* In order for a Mayo Clinic Health System physician to discuss the medical care of an adult family member with you, you must have a signed authorization form or have the family member present.
